Richmond DPU: City Improvement Projects

Job: Mimosa Street Improvements

Location: 2100 Block of Mimosa Street

Project Introduction

This project will remove abandoned stormwater infrastructure from the 2100 block of Mimosa Street to eliminate cavitations and improve public safety. The scope of work will involve replacing driveway entrances, sidewalk, and a stormwater inlet. The project will also replace the asphalt curb with concrete curb on the north side of Mimosa Street between Willis Street and Minefee Street. Following the completion of this work, disturbed areas and surfaces will be restored with topsoil, seed, and straw, and any fences, driveways, and walkways will be replaced in kind as needed. The project area is highlighted in yellow on the graphic below.

Construction is expected to begin on Monday, March 23rd of 2026 and is anticipated to last approximately two months, weather permitting. All affected residences and property owners will be notified prior to the start of construction.

Project Schedule

Project Assignment: Department of Public Utilities - Stormwater Utility

Survey & Preliminary Design: N/A

Engineering Design: N/A

Construction Assignment: Construction Start Anticipated on Monday, March 23rd of 2026 (TUCI)

WHAT HAPPENS NEXT:

Project Duration:
This project will be completed by our contractor Tidewater Utility Construction, Inc. (TUCI).
Construction is expected to begin on Monday, March 23rd of 2026.
Construction is anticipated to last approximately two months, weather permitting.
Construction activity can be expected to occur between 8:00 am and 5:00 pm from Monday through Friday each week.
Residents will have access to their homes and vehicles during construction activity.
Mimosa Street will be closed to thru traffic from Willis Street to Minefee Street during construction hours.
Temporary traffic control signs will be in place to direct drivers and traffic accordingly.
Construction vehicles can be expected in and through the neighborhood during construction work hours.
All affected residences and property owners will be notified prior to the start of construction.
This flyer will be updated with additional information as the project develops and progresses.
We greatly appreciate your patience as these important improvements are both planned and implemented.

Project Benefits:
This project will improve public safety and eliminate cavitations by removing abandoned stormwater pipe from the 2100 block of Mimosa Street.
