

Richmond DPU: City Improvement Projects

Job: Oakwood Cemetery Drainage Project

Location: Oakwood Cemetery

Project Introduction

Failed stormwater infrastructure within the cemetery property resulted in a re-routing of the system to stay within the roadway and away from resting areas.

This project resulted in the installation of 553 linear feet of reinforced concrete pipe, 13 structures (manholes and drop inlets), and an adequate outfall.

Construction was completed in November of 2021.

Project Schedule

Project Assignment: RK&K

Survey & Preliminary Design: Completed (RK&K)

Engineering Design: Completed May 2021 (RK&K)

Construction Assignment: Completed July 2021 through November 2021 (PB Chenault)
