

Richmond DPU: City Improvement Projects

Job: Three Chopt Road Drainage Improvement Project

Location: Three Chopt Road, Boatwright Drive, and Honaker Avenue

Project Introduction

This project was completed to remedy drainage issues near the intersection of Three Chopt Road and Boatwright Drive.

The scope of this project was limited to the existing right of way areas and included improvements to the stormwater conveyance system and the addition of another culvert under Three Chopt Road.

Reported concerns informing this project included damaged inlets and pipes within the stormwater conveyance system, and roadway runoff draining in an uncontrolled manner onto adjacent properties on the east side of Three Chopt Road.

Construction was completed in October of 2020.

Project Schedule

Project Assignment: August 2019 (A. Morton Thomas & Associates)

Survey & Preliminary Design: Completed December 2019 (A. Morton Thomas & Associates)

Engineering Design: Completed June 2020 (A. Morton Thomas & Associates)

Construction Assignment: Completed August 2020 through October 2020 (PB Chenault)
