

Richmond DPU: City Improvement Projects

Job: Maury Street Emergency Project

Location: The 600 Block of Maury Street

Project Introduction

This project involved replacing the stormwater pipe under the 600 block of Maury Street, between East 6th Street and East 7th Street, as the pipe was failing.

This work replaced the failing pipe and related stormwater infrastructure. Additionally, the roadway was also restored after the stormwater improvements were completed.

Construction was completed ahead of schedule in August of 2024.
