

Richmond DPU: City Improvement Projects

Job: East Marshall Street Emergency Repair Project

Location: 1300 Block of East Marshall Street at VCU Health

Project Introduction

This emergency stormwater repair project will address a cavitation near the stormwater line on East Marshall Street that will be further assessed when the contractor, PB Chenault, mobilizes.

This effort will replace the existing failing stormwater pipe and structure, and restore the roadway, between the Duvall Street Connector and North 12th Street.

Regular coordination and communication with the VCU School of Medicine and VCU Health will continue throughout the duration of this emergency repair project.

WHAT HAPPENS NEXT:

Project Duration:

It is anticipated that our contractor, PB Chenault, will begin construction work on the evening of Sunday, April 13th barring any weather delays or other unforeseen circumstances.

Weather permitting, it is anticipated that this emergency repair project will take approximately two (2) weeks to complete. The initial repair work and construction will occur overnight from 7:00 pm to 4:00 am, and only between Sundays and Thursdays.

Following the conclusion of the underground repairs, daytime work hours will be observed for site restoration efforts from 9:00 am to 4:00 pm, and only between Mondays and Fridays.

Traffic Detours:

Both westbound lanes of East Marshall Street will be closed to traffic between the Duvall Street Connector and North 12th Street during construction work hours. Detours will be in place, and well marked, to direct westbound traffic accordingly.

We apologize for the inconvenience and greatly appreciate your patience as these important improvements are made.
