

Richmond DPU: City Improvement Projects

Job: Patterson Avenue Emergency Repairs - 6000 Block

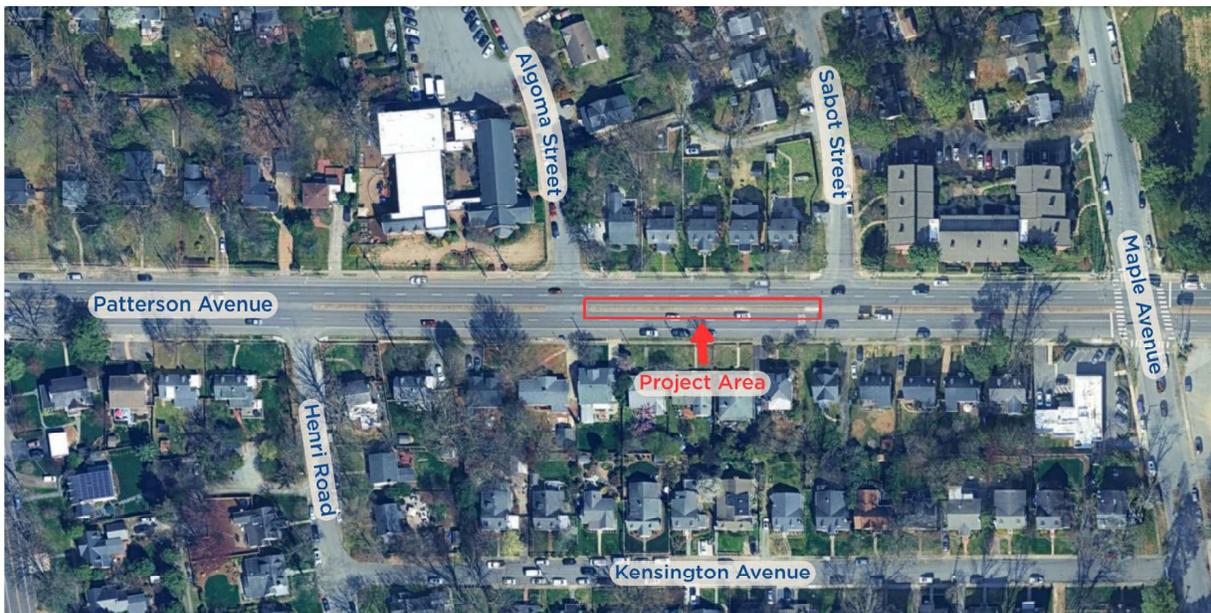

Location: 1st City Council District

Project Introduction

This project will repair stormwater infrastructure in the 6000 block of Patterson Avenue.

Construction began on Monday, November 10th of 2025 and should be completed by the end of February, weather permitting. Final pavement restoration will occur in the Spring of 2026 when the weather and temperatures are most cooperative.

Work will primarily be conducted within the median. Temporary eastbound and westbound left lane closures on Patterson Avenue can be expected as part of this project when construction activity occurs. Temporary traffic control signs are in place to direct drivers and traffic accordingly. The project area is indicated in red in the graphic below.
